The National Energy Efficiency Registry

ACEEE Energy Efficiency Finance Forum May 24, 2016

ENERGY Promoting clean, efficient, safe solutions

ECONOMY

Growing a prosperous, low-carbon economy into the 22nd century

EQUITY

Empowering all Americans to run their homes with clean, efficient, affordable energy

ENVIRONMENT

Restoring healthy air, water and land

What is NEER?

A project to develop Model Principles and Operating Rules for a Energy Efficiency Registry supported by the Department of Energy, Office of Energy Efficiency and Renewable Energy (EERE), under Award Number DE-EE0007219, CFDA No. 81.119.

This project is led by the TN Energy Office and a steering committee with representatives from GA, MI, MN, OR & PA. NASEO and The Climate Registry are project partners.

Disclaimer

- 1. Views expressed are my own.
- 2. Full Disclosure: E4 is a subcontractor to The Climate Registry.

The Climate Registry

Aspects of the development of the National Energy Efficiency Registry (NEER) are supported by the Department of Energy, Office of Energy Efficiency and Renewable Energy (EERE), under Award Number DE-EE0007219, CFDA No. 81.119.

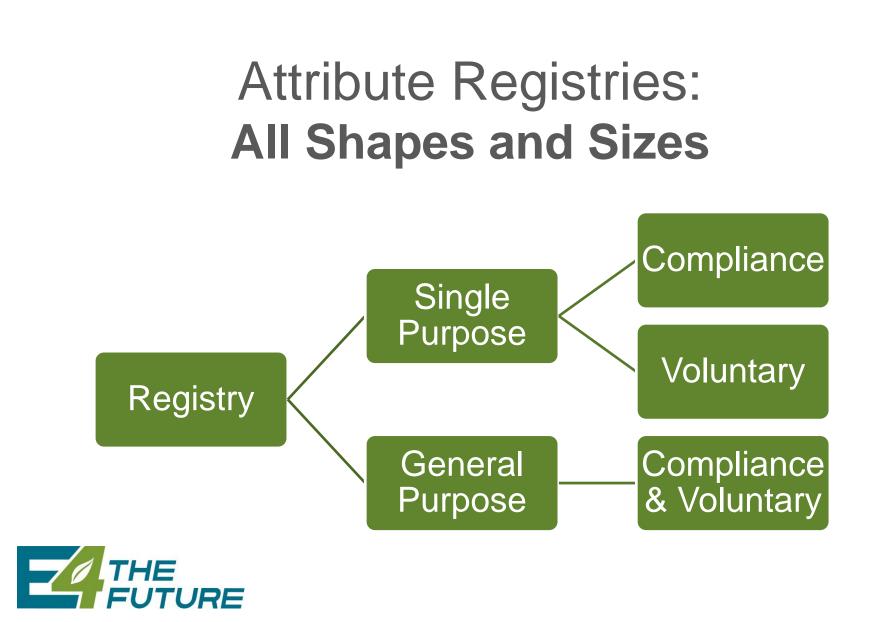

Topics for Today

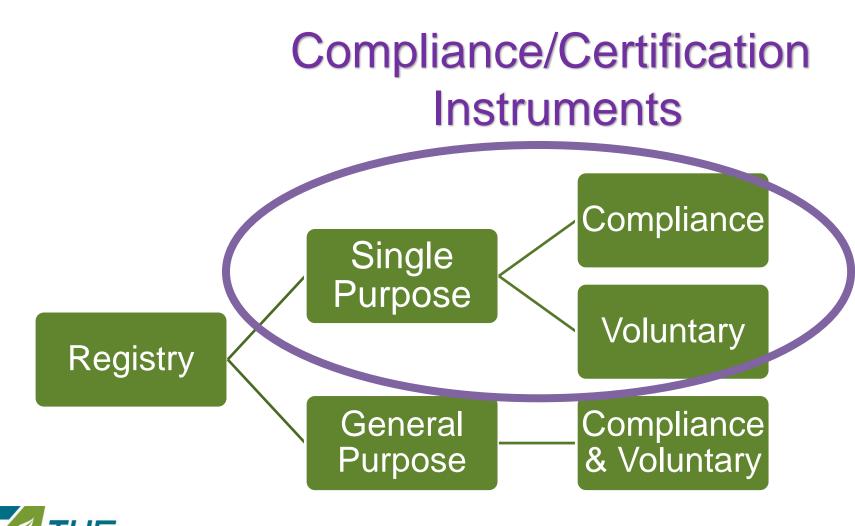

- Types of Attribute Registries
- What Registries do well
- QA/QC of data and analysis is key for EE

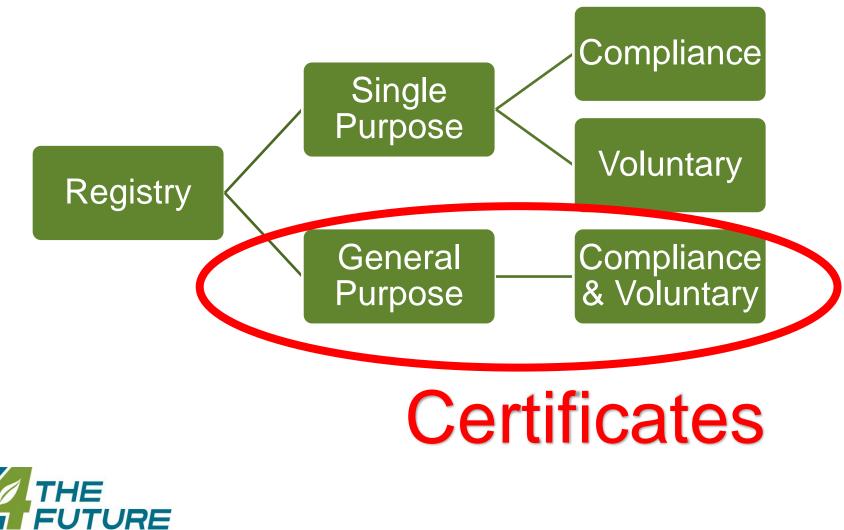

Types of Attribute Registries

Example Attribute Registries

Single Purpose Compliance Registries

- Acid Rain Program Registry
- Ozone Transport Commission NO_x Registry
- RGGI Allowance Registry

Voluntary Certification Registries

- Green-e
- Verified Carbon Standard Registry
- Low Impact Hydropower Institute Registry

General Purpose "All Non Energy Attributes" Certificate Registries

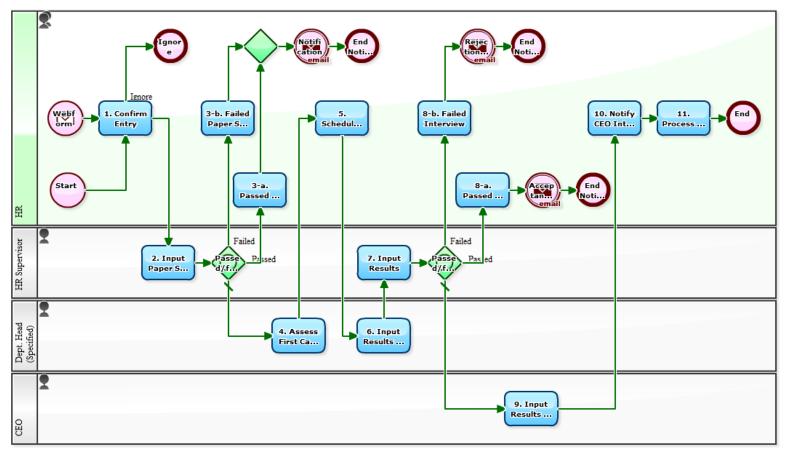

- NEPOOL Generation Information System (GIS)
- PJM Generation Attributes Tracking System (GATS)
- WREGIS
- NARR
- MRETS

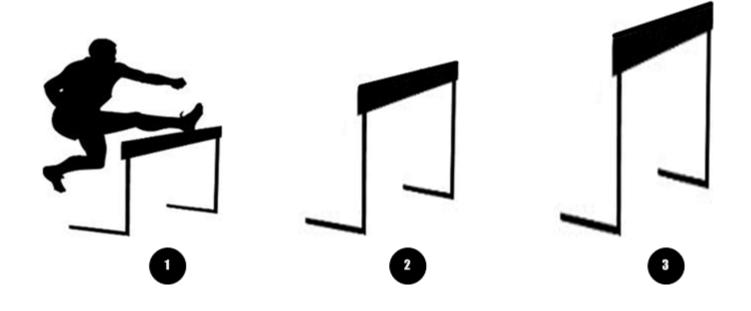

What Registries do well

1. Standardize, Enforce and Document Approval Process

2. Enable Compliance with Standards

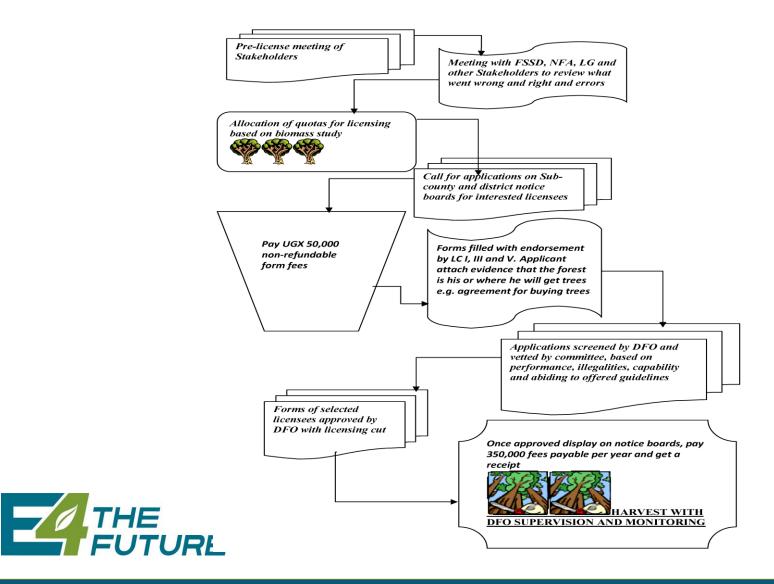

3. Disclosure

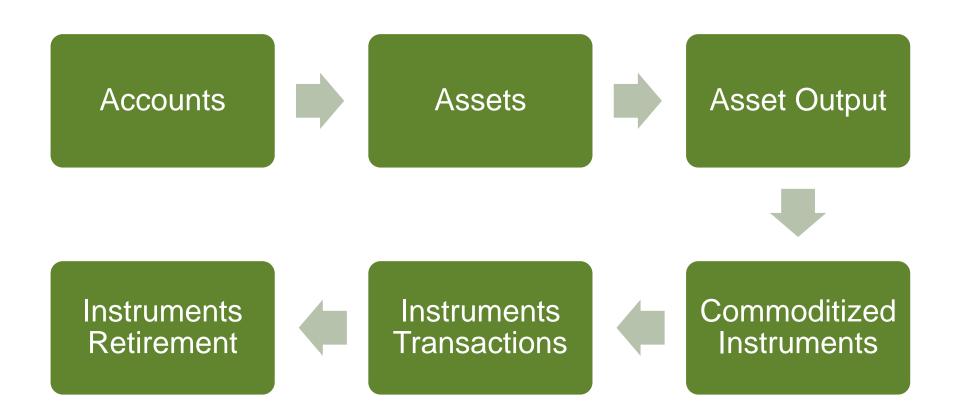

4. Chain of Custody

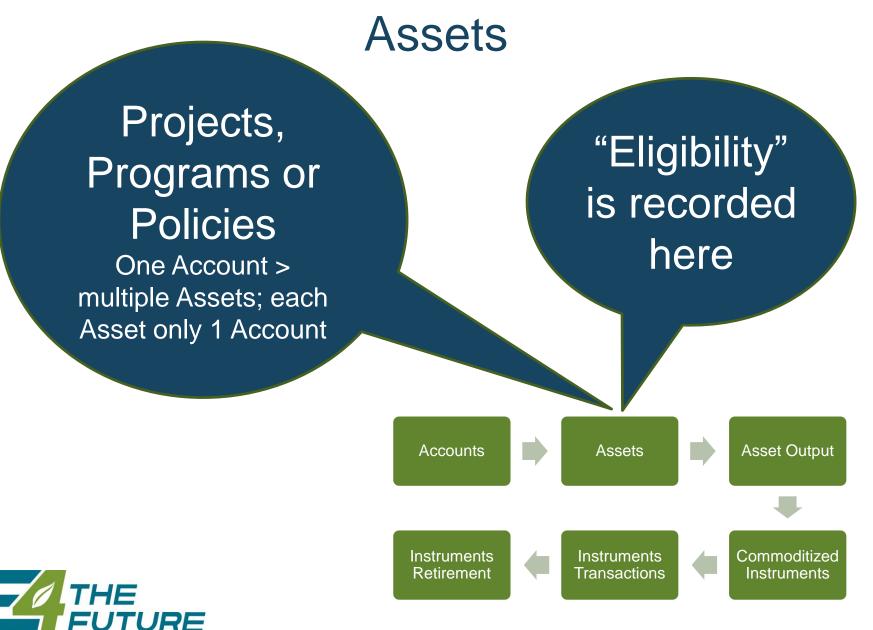

QA/QC of data and analysis key for EE

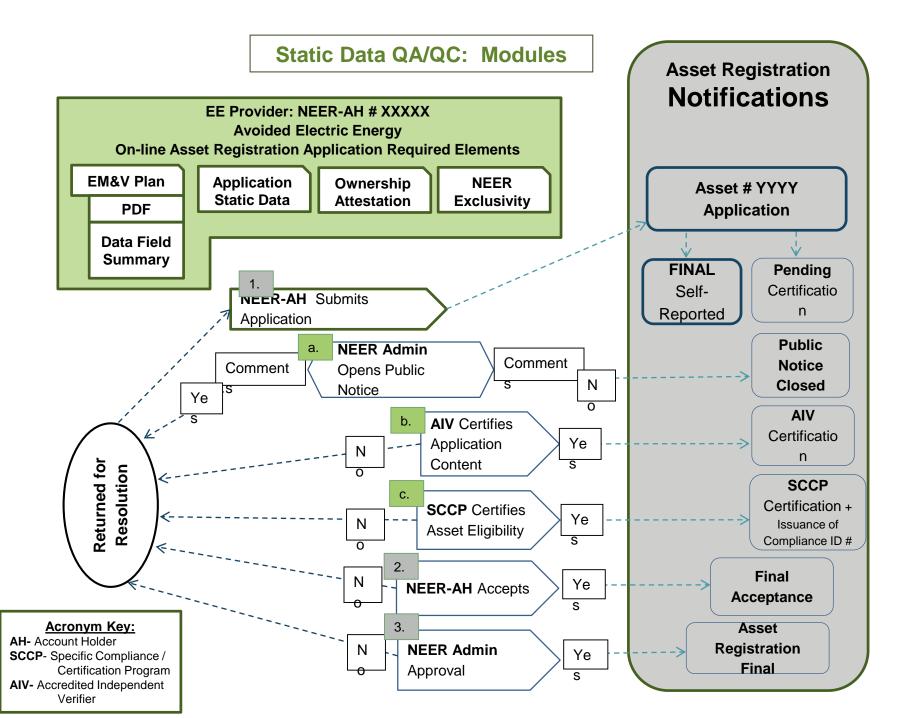

Basic Registry Elements

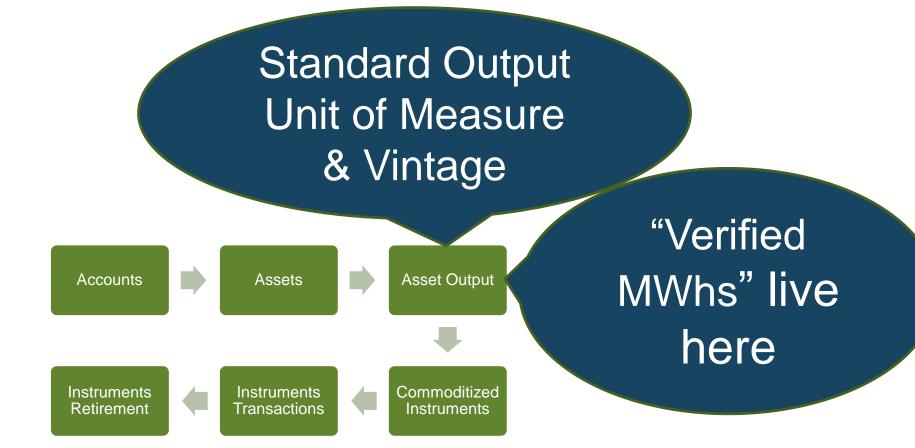

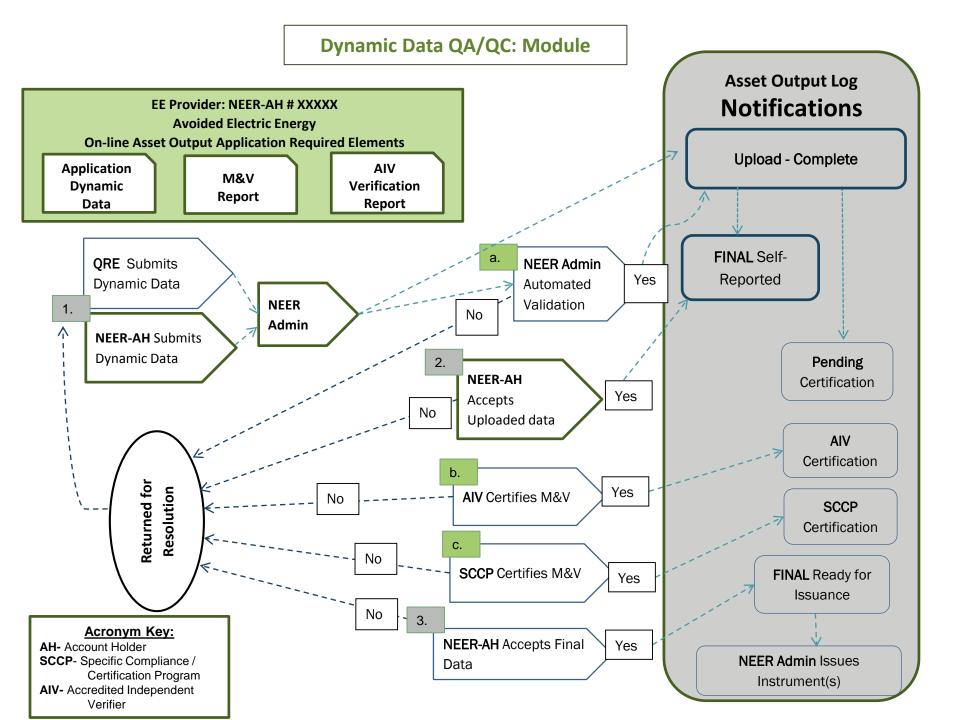

Asset Output

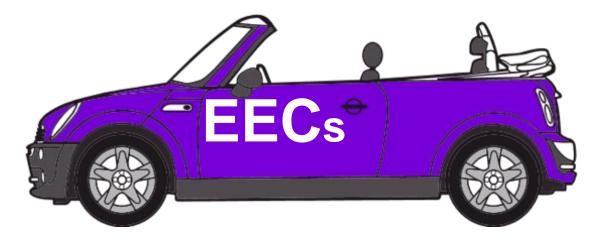

NEER seeking input from EE Finance

Vehicle to added value (à la RECs)

Rigorous Due Diligence QA/QC mitigates risks

Pay for Performance rather than programs

Your feedback is key for us to get it right.

Q&A / Thank you!
