

PANEL 4 - Beyond Best Practices (Panel Leaders: Amelie Goldberg, IIP & John Malinowski, Baldor Electric)

Wed 8/5	Session 1 8:30 am - 10:00 am Supply Chain	Adding Energy Savings in the Supply Chain David Goldstein, Natural Resources Defense Council
		Engaging Supply Chains for True Energy Performance Impact Vestal Tutterow, Project Performance Company
		A Platform for Accelerating the Deployment of Profitable Efficiency Solutions in Supply Chains Amelie Goldberg/Institute for Industrial Productivity
	Session 2 10:30 am - 12:00 pm Motor Driven Systems	Compressed Air System Upgrades (What is Being Implemented and What is Left to do) Claire Hessmer, Antares Group Inc.
		NEMA and IECCE GMEE “Global Motor Energy Efficiency” Program Dan Delaney, Regal Beloit
		Knowledge Equals Power Savings When It Comes to Pumping Systems David Werner, Michaels Energy
	Session 3 1:30 pm - 3:00 pm Emerging Technologies	Documenting Results to Validate Energy Savings Projects: Case Study of Direct Drive Cooling Tower Installations: Before and After Roman Wajda, ABB/Baldor Electric
		High-Volume, High-Velocity Deployments of Emerging Technologies in Industry Geoff Wickes, Northwest Energy Efficiency Alliance
		Exploring the Customer Benefits of Advanced Technology Motors: Test Results and Opportunities for Next Generation Motor Programs Walker Larsen, Consortium for Energy Efficiency
Thurs 8/6	Session 1 8:30 am - 10:00 am Next Generation Applications	Risk Based Survey in Steam Trap Management Hanung Andriyanto, Badak LNG
		Kiln Upgrade Case Study: Turn-of-the-Century Brick Kilns Replaced with a Quick-Dry Partial Vacuum System at Steinway & Sons Ryan Bossis, ERS
		Datacenter Energy Efficiency Program Yuming Qiu, CLEAResult Consulting, Inc.
	Session 2 10:30 am - 12:00 pm High Yield Projects	Industrial Retrocommissioning (RCx) Chris Smith, Energy 350
		Enhanced Opportunities for Energy Savings in Industrial Facilities through Long-term Monitoring Trevor Terrill, Texas A&M University
		Examples and Best Practices of High-Yield Energy Efficiency Projects Regina Montalbano, Lockheed Martin Energy Solutions

PANEL 4 - Beyond Best Practices (Panel Leaders: Amelie Goldberg, IIP & John Malinowski, Baldor Electric)

Thurs 8/6

Session 3
1:30 pm - 3:00 pm
Measure & Save

Drill, Baby, Drill! Mining More Energy Savings after Ten Years of Efficiency Measures
Josh Kelman, Vermont Energy Investment Corporation

An Innovative Approach Combining Industrial Process Data Analytics and Operator Participation to Implement Lean Energy Programs: A Case Study
Philippe Mack, PEPITE SA
