

PANEL 1: PROGRAMS - SESSION SCHEDULE *[note: this schedule is subject to change]*

Martin Lott Peter Therkelsen		ITEM	LEAD AUTHOR/ORGANIZATION/EMAIL	TITLE
Wed 8/16	Session 1 8:30 am - 10:00 am Getting People Involved	1	Sarah Mitchell, Efficiency Nova Scotia	Compressed Air Leak Surveys: Gateway to Industrial Efficiency
		2	Clemens Rohde, Fraunhofer ISI	Lessons learnt from the uptake of energy audits and energy management systems in Germany
		3	JingJing Liu, Lawrence Berkeley National Laboratory	ISO 50001 and SEP Faster and Cheaper - Exploring the Enterprise-Wide Approach
	Session 2 1:30 pm - 3:00 pm Beyond SEM	4	C.D. Nayak, DNV GL	Are we all on the same page? – Bridging the Knowledge Gap between Plant Personnel and Energy Consultants to Create Sustained Savings
		5	Todd Amundson, Bonneville Power Administration	Program Design Features that Cultivate Industrial Mega-Projects
		6	Hassaan Idrees, K-Electric (Arizona State University)	Energy management systems in a vertically integrated power utility
Thurs 8/17	Session 1 8:30 am - 10:00 am Bringing Customers to the Table	7	Greg Baker, Vermont Energy Investment Corporation	A Tale of Two CEIs
		8	Jennifer Weiss, Southern Alliance for Clean Energy	Realigning Utility Incentives for Industrial Customers: Using Strategic Energy Management to Increase Customer Participation in Energy Efficiency Programs
		9	Peter Worley, Go Sustainable Energy	Dollars and Sense – How Utility Rebates Influence Implementation Beyond Economics
	Session 2 1:30 pm - 3:00 pm Evaluation	10	Julia Vetromile, DNV GL	How Best Practices in Documenting Strategic Energy Management Lead to Better Programs and More Savings
		11	Paul Warila, Cascade Energy	What to do about Hard-to-Reach Rural, Small Industrial, and Agricultural Markets? – A Streamlined Solution
		12	OPEN - TBD	
Fri 8/18	Session 1 8:30 am - 10:00 am Water	13	Andre de Fontaine, U.S. Department of Energy	Capturing the Energy Efficiency and Renewable Energy Opportunity in the Wastewater Treatment Sector
		14	Prakash Rao, Lawrence Berkeley National Laboratory prao@lbl.gov	Estimating US Manufacturing Water Use
		15	Layne McWilliams, Cascade Energy	Let's think outside the box. Wait . . . what's IN the box?—An Exploration of Water Network Energy Efficiency

PANEL 1: PROGRAMS - SESSION SCHEDULE *[note: this schedule is subject to change]*

Martin Lott Peter Therkelsen	ITEM	LEAD AUTHOR/ORGANIZATION/EMAIL	TITLE
---------------------------------	------	--------------------------------	-------

ALTERNATES (back-ups):

1	David Goldstein, Natural Resources Defense Council	A Structure for Incentivizing Greater Achievements in Strategic Energy Management
2	Yin Yin Wu, BASE Energy, Inc.	Evaluation of Industrial Standard Practices and Energy Efficiency Technologies in Municipal Wastewater Treatment Facilities
