

## **PANEL 1: PROGRAMS**

**Panel Leaders:** Martin Lott, Cascade Energy and Peter Therkelsen, Lawrence Berkeley National Laboratory

This panel will focus on all aspects of industrial energy efficiency program design and implementation. Topics could include design approaches of Strategic Energy Management programs (e.g., CEE Minimum Elements, ISO 50001, or Superior Energy Performance based) or Pay for Performance programs, promotional implementation results, program integration with demand response or distributed generation (e.g., CHP), and facility implementation experiences.
