

# 2015 Energy Efficiency Finance Forum

## *A Critical Moment*

Marriott Marquis • San Francisco, CA • May 31 - June 2, 2015

### CONFERENCE PROGRAM

#### Sunday, May 31

12:00 pm to 7:00 pm	REGISTRATION OPEN	Golden Gate Foyer
1:00 pm to 5:00 pm	EEFF 101	Golden Gate A

**Separate Registration Required.**

Brought to you by:

Workshop Coordinator: **Pat McGuckin**, Cadmus

This workshop will guide participants through the key decisions in creating an energy efficiency financing program, with pros and cons from a variety of stakeholder perspectives. Participants will learn about the six key program components – from target markets to credit enhancement – and the seven most common program models – from third-party private lending to PACE and on-bill repayment. Participants will put the information to use in an interactive session to design a finance program based on their organization's specific needs or on a typical real-world scenario.

5:00 pm to 7:00 pm	WELCOME RECEPTION	Golden Gate B

#### Monday, June 1

7:00 am to 7:30 pm	REGISTRATION OPEN	Golden Gate Foyer
7:00 am to 8:00 am	CONTINENTAL BREAKFAST	Golden Gate B
8:00 am to 5:30 pm	CDFA DEAL ROOM OPEN	Juniper Room

**8:00 am to 10:30 am** **WELCOME AND PLENARY SESSION** *Golden Gate A*

Co-Chair Welcome: **Sheridan Pauker**, *Wilson, Sonsini, Goodrich & Rosati*  
**Bruce Schlein**, *Citi*

Introductions: **Casey Bell**, *American Council for an Energy-Efficient Economy*

Keynote: **Steve McBee**, *NRG Home*

**Envisioning a Mature Market**

Moderator: **Bruce Schlein**, *Citi*

Speakers: **Bill Campbell**, *Equilibrium Capital*  
**Bert Hunter**, *Connecticut Green Bank*  
**Cisco DeVries**, *Renewable Funding*

**Description:** The market potential for EE investment is large, and it's being approached in a variety of ways. In recent years we've focused on finding solutions to deploy at scale and serve hard-to-reach markets. What does a mature market look like?

**10:30 am to 11:00 am** **AM BREAK** *Golden Gate Foyer*

*CDFA Deal Room is Active. (Refer to the list of projects and presentation times in your registration packet.)*

**11:00 am to 12:30 pm** **CONCURRENT SESSIONS**

*1A* *Golden Gate Ballroom C2*

**Building Volume: Recent Breakthroughs on the Path to Scale**

Moderator: **Gillian Francis**, *Lockheed Martin Energy Solutions*

Speakers: **JP McNeil**, *Renovate America*  
**Dave Jaros**, *Noesis*  
**Josh Heald**, *Pemco Capital*  
**James Vergara**, *Deutsche Bank*

**Description:** Unlocking more of the estimated \$1 trillion market opportunity in energy savings is a monumental endeavor by any measure. In this panel, we will examine some recent breakthroughs and the factors that contributed to their success. We will also share lessons learned and discuss how the growth of third-party financing, advances in software and big data tools, and other key market trends may help more stakeholders “get to yes” and increase project volume and origination in the future.

*1B* *Golden Gate Ballroom A*

**The Great Debate: Financing, Rebates, and the Future of Efficiency**

Moderator: **Philippe Dunsky**, *Dunsky Energy Consulting*

Speakers: **Jeff Perlman**, *Bright Power*  
**Bob Hinkle**, *Metrus Energy*  
**Tom Eckman**, *Northwest Power and Conservation Council*

**Description:** Financing and rebates are both tools to achieve long-term energy efficiency goals, but how do they compare? Panelists will debate the real costs and benefits of innovative financing programs, the extent to which they should substitute – or complement – traditional incentive-based programs, and good stewardship of ratepayer dollars. The panel will also explore disruptive forces in the delivery of energy services that could change the debate in the future.

**12:30 pm to 1:30 pm****LUNCH***Golden Gate B***1:30 pm to 3:00 pm****BREAKOUT SESSIONS**2A*Golden Gate Ballroom C1***Financing through Contractor Networks**Moderator: **Megan Campbell**, *Opinion Dynamics*Speakers: **David Kelly**, *Ygrene*  
**Dennis Quinn**, *Joule Assets*  
**Christopher Smith**, *NECA-IBEW*

**Description:** This session will start with an overview of leveraging contractors to market energy efficiency finance programs, segments of contractor firms to know, and why they are a magic key to opening the customer door for financing. Next, it will explore pathways to engaging contractors as a facilitation channel for energy efficiency finance initiatives and the contractor channel from multiple perspectives. Attendees will learn how to ensure success with contractors and what that means for the financial value of investments.

2B*Golden Gate Ballroom A***Big Deals: Recent Developments in Securitization**Moderator: **Dan Sullivan**, *PricewaterhouseCoopers*Speakers: **Alan Riska**, *Cypress*  
**Adam Zimmerman**, *Craft3*  
**Jack Bernard**, *Renewable Funding*  
**Stacey Lawson**, *Ygrene*

**Description:** It has been an eventful year for building energy efficiency as an asset. Here we will discuss lessons learned from recent deals.

2C*Golden Gate Ballroom C2***Focus on California: Experimentation and Progress in the Golden State**Moderator: **Jeanne Clinton**, *California Public Utilities Commission*Speakers: **Frank Spasaro**, *Southern California Gas*  
**Deana Carillo**, *CAEATFA*  
**David Cohen**, *Center for Sustainable Energy*  
**Paul Blagbrough**, *Union Bank*

**Description:** From on-bill repayment pilots to PACE securitizations and the potential establishment of a green bank, California is experimenting and learning quite a lot. This panel will provide an in-depth look at the evolution of the on-bill pilots, and look to the future of energy efficiency finance throughout the state.

2D*Golden Gate Ballroom C3***Corporate Social Responsibility and Beyond: Energy Efficiency as an Investment**Moderator: **Faith Taylor**, *Wyndham Worldwide*Speaker: **Kathleen Hokanson**, *KOAN Energy Consultants*  
**Susan Harper**, *Bank of America*  
**David Posner**, *Alliance to Save Energy*

**Description:** This session will take a close look at how corporate sustainability decision-makers are looking at energy efficiency as an asset within their real estate portfolios.

**Co-selling Energy Efficiency and Solar**Moderator: **Emily Martin Fadrhonc**, *Lawrence Berkeley National Lab*Speakers: **Claire Tramm**, *Effortless Energy and Chicago Infrastructure Trust*  
**Juan Pablo Alban**, *Enerdigm Capital Management*

**Description:** Between 2008 and 2013, rooftop solar grew an average of more than 50 percent per year in the U.S. Energy efficiency providers can look to the meteoric growth in solar to understand what strategies they can use to accelerate adoption. This panel will explore the challenges of applying these approaches and co-selling energy efficiency with solar: what works, what doesn't, and what are the limits to applying solar strategies to energy efficiency? The panel also will consider the role of financing options and tax supports for solar versus energy efficiency, as well as consumer motivations for investing in solar, energy efficiency, or both.

**Making It Count: Showcasing Financing's Value in Maturing Utility Portfolios**Moderator: **Chris Kramer**, *Energy Futures Group*Speakers: **Angie Lee**, *Navigant*  
**Laura James**, *Cadmus*  
**Bob Wirtshafter**, *Wirtshafter Associates*

**Description:** As energy efficiency financing programs continue to grow, utilities and other program administrators are increasingly treating financing as a mature and integral portfolio strategy. Large-scale efforts in some jurisdictions have led program administrators try to quantify the benefits of financing approaches from both a planning and evaluation perspective. These efforts have raised a number of important questions. For example, how can program administrators project the amount of additional savings that financing programs may help program administrators obtain? How can evaluation be used to track progress over the short and long term, informing program design and potentially tying into performance incentives? How can regulators determine the influence of financing on a portfolio's overall cost-effectiveness, and how can programs assess the impact of financing within broader efforts to effect large-scale market transformation?
