# EER Sponsorships

In October 2019 in Minneapolis, ACEEE will host our tenth National Conference on Energy Efficiency as a Resource, the premier US convening conference on efficiency as a utility system resource. Held every other year since 2001, the “EER Conference” attracts a broad spectrum of energy industry stakeholders including utilities, regulatory commissions, state government, consultants, manufacturers, environmental organizations, consumer groups, and research institutes. It will highlight the latest developments in the design and delivery of customer energy efficiency programs, and in the regulatory mechanisms that help make them possible. Look for a robust discussion of the many issues facing utilities as they acquire and integrate this resource into their planning, operation, and business models.

Reaching the right audience with information about your products and services is critical to success in today's competitive business environment. The National Conference on Energy Efficiency as a Resource is well known for providing rigorous content and meaningful networking opportunities, while attracting the leading companies and professionals in the energy efficiency space. Put your brand in front of the people you want to reach by sponsoring ACEEE's National Conference on Energy Efficiency as a Resource.

**Likely Participants Include:** Utilities, regulatory commissions, state government, consultants, manufacturers, environmental organizations, consumer groups, and research institutes.
