

The background of the slide features a photograph of a technician with a beard and glasses, wearing a dark jacket, working on a complex piece of industrial equipment. The image is overlaid with a blue-to-green gradient. The technician is focused on a task, with his hands near a large pipe or component of the machinery.

6A. Residential Gas Heat Pump Water Heaters- Moving to Market

ACEEE Hot Water Forum- March 2019

A diverse set of policy, technology, market, and efficiency program considerations are driving stakeholder focus on gas heat pumps

Session Overview and Presenters

Gas Heat Pump Water Heaters (GHPWH) are getting close to commercialization. Learn:

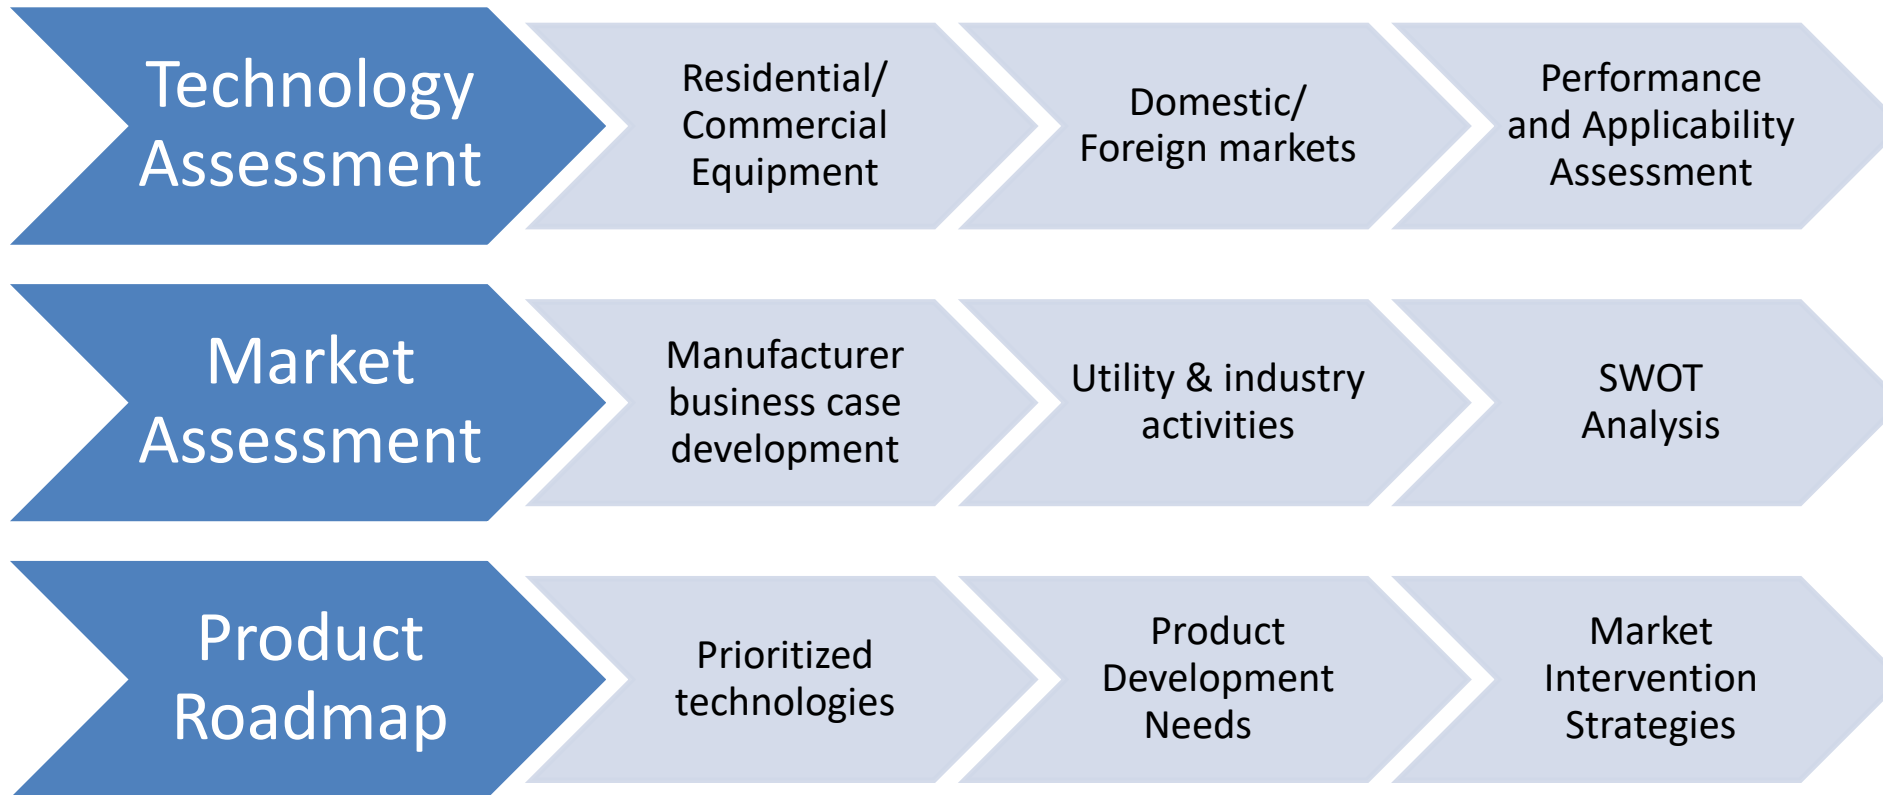

- *why utilities are so engaged with this technology,*
- *the latest on how GHPWHs are performing in the field, and*
- *what is being done to bring them to market and how you can be involved!*

- 1. Holly Braun-** EE and Innovation Manager, Northwest Natural
- 2. Paul Glanville-** R&D Manager, Buildings EE, GTI
- 3. Aaron Winer-** Senior Program Manager, NEEA
