

Northeast Energy Efficiency Partnerships

# Trading Spaces: NEEP and the HEMS Working Group

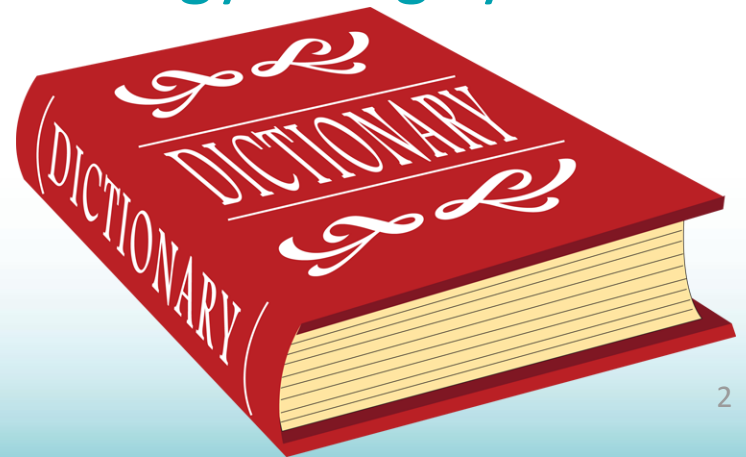

Claire Miziolek

Market Strategies Program Manager  
Northeast Energy Efficiency Partnerships

ACEEE Intelligent Efficiency Conference  
December 8<sup>th</sup>, 2015

# HEMS Definition

- Home Energy Management Systems (HEMS) refer to any hardware and/or software system that can:
  - monitor and provide feedback about a home's energy usage,
  - and/or**
  - enable advanced control of energy-using systems and devices in the home

# Working Group

Northeast Energy Efficiency Partnerships

Home  
Performance  
Coalition

- Collaboration between NEEP and HPC
- Goals:
  - Start a national conversation on HEMS focused on their integration with energy efficiency activities
  - Set a path for HEMS technology to evolve with efficiency as a major component
  - Develop common objectives, terminology, and goals in the HEMS space
- Meet bi-monthly, contact me to get involved
