

Smart Energy in Offices

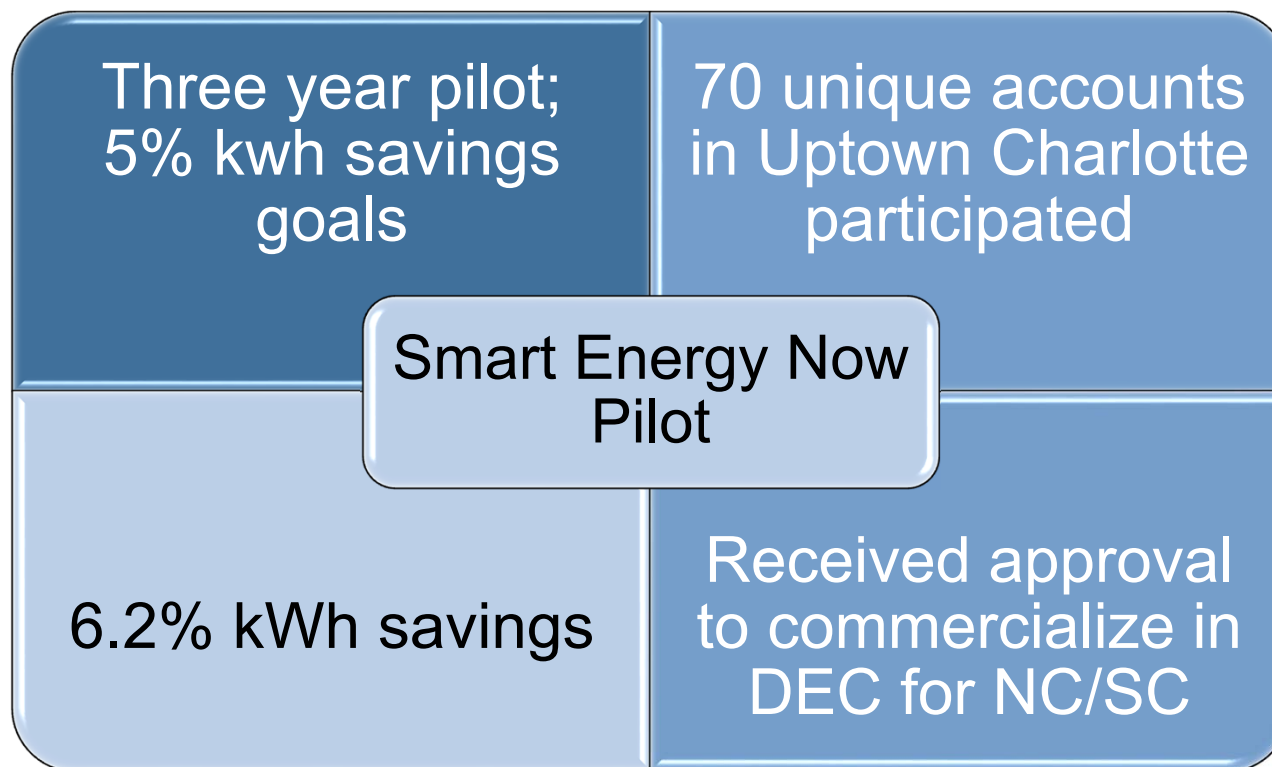

What is Smart Energy in Offices?

A program that drives energy efficiency savings with community focused collaboration of building management, tenants, and occupants. Through unique engagement strategies we focus on simple every day changes anyone can make to help save energy in the office space.

How did we get here?

What are the key features?

Community -
based

Teams and
Collaboration

Best practice
sharing

Behavioral action campaigns
and challenges

Rankings and
Competitions

Online portal to measure and track with
Portfolio Manager integration

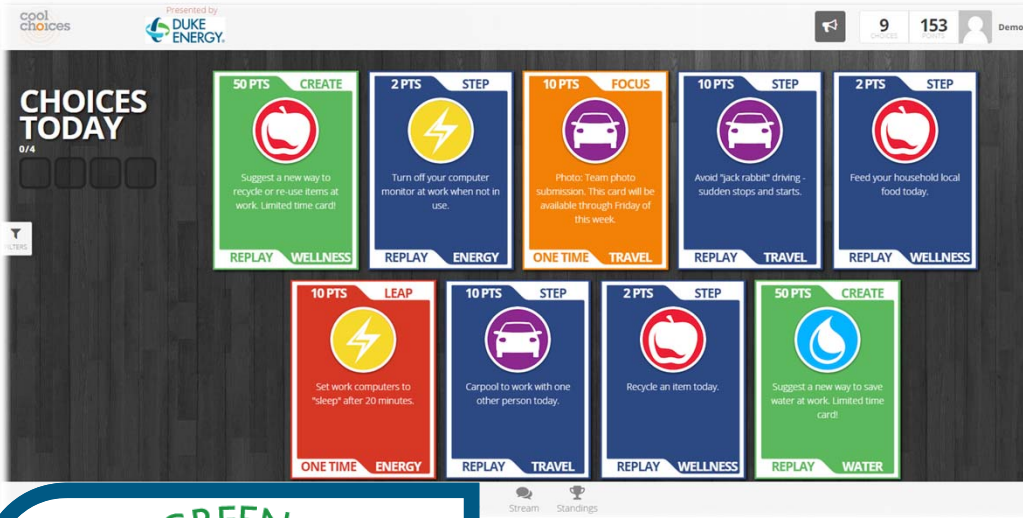

What does engagement look like?

I've been adopted
by:

Please help me save energy by
turning off lights when not in use
