

2019 SUMMER STUDY INDUSTRY: PANEL 1

INSPIRATIONAL FUTURE – Enabling action to inspire the future

Panel Leaders: **Kristin A. Bennett, PhD**, *KB Science* and **Emily Thorn Corthay**, *Thorn Associates*

Our Big Vision panel will examine the actions that we can take to create a more energy efficient, more effective, and more successful industrial sector. It will feature discussions of leading-edge industrial technologies and insights into what's to come. Find out what's possible with topics on:

- How the digital economy and design for the environment can save energy
- Ways new technologies may break down market barriers and eliminate market failures
- The power of machine learning, artificial intelligence, and augmented reality
- What new tools, new practices, and new initiatives will carry us forward
